

EVERY TOUCH TELLS A STORY

Chiesi-Sponsored Scientific Symposium

Translating Mechanism into Meaningful Outcomes in EB

11 September 2026, 08:00 – 09:00

55th Annual ESDR Meeting
Heidelberg Congress Center, Germany
Room: Hall 2B

Join us for a clinician-led discussion on EB care, linking mechanistic understanding to real-world outcomes. The session will explore how current therapies translate into meaningful clinical improvements and how complementary mechanisms can be applied in practice to support long-term patient outcomes.

We look forward to seeing you there!

Chair: Dimitra Kiritsi

Aristotle University of Thessaloniki,
Thessaloniki, Greece

Giuseppe Micali

University of Catania,
Catania, Italy

Hanna Ługowska-Umer

Medical University of Gdańsk,
Gdańsk, Poland

Joyce Teng

Stanford University,
Stanford, USA

Agenda

Welcome & Opening Remarks

From Pathway to Repair: New Mechanistic Insights and Complementary Approaches

Bridging Mechanism and Meaningful Outcomes by Non-Invasive Imaging

From Evidence to Everyday Practice: Real-World Outcomes

Panel Discussion

This session is sponsored by Chiesi Farmaceutici S.p.A and is for health care professionals only. This is not a continuing education (CE) activity. This satellite symposium is held in conjunction with the 55th ESDR (European Society for Dermatological Research). There is no registration fee for attending this symposium.
